ABOUT THE INSTITUTE

IIIT Dharwad is an Institute of National Importance set up in 2015 in Public-Private-Partnership mode between the Ministry of Education, Government of India, Government of Karnataka and industry partner Keonics under an Act of Parliament (23 of 2017).

The institute offers BTech degree programmes in Computer Science and Engineering, Electronics and Communication Engineering, and Data Science and Artificial Intelligence.

The institute also offers PhD programs in Computer Science and Engineering, Electronics and Communication Engineering, Mathematics and Physics.

As an Institute of National Importance, IIIT-Dharwad focuses on applying IT to solve problems of social relevance to India the kind of solutions that do not usually result from the commercial forces of market dynamics or the priorities of the western world outside India.

ABOUT THE WORKSHOP

Digital Forensics and Cyber Fraud is an intensive five-day training program designed to equip participants with practical knowledge and hands-on experience in digital forensics, cyber fraud detection, and cybercrime investigation. Participants will gain exposure to digital evidence identification, acquisition, preservation, and analysis using industry-relevant forensic tools and investigative techniques. Through expert-led sessions and real-world cyber fraud case studies, attendees will explore methods for investigating digital crimes and understand the legal and ethical aspects of digital forensic practice. Ideal for students, researchers, faculty members, cybersecurity enthusiasts, and industry professionals, this ANRF-sponsored workshop bridges theory and practice, preparing participants to effectively investigate cyber incidents and respond to emerging cyber threats in today's evolving digital landscape.

WHO CAN APPLY?

UG, PG, Ph.D. Scholars
Research Staffs, Faculty Members, and
Industry Professionals

REGISTRATION DETAILS

- ₹ Registration Fees: Nil
- 👤 Number of Seats: 40
- 📅 Last date to apply: 12 July, 2026
- 🔔 Intimation to selected participants: 15 July, 2026.

Food and accommodation will be provided to selected participants.

REGISTRATION

RESOURCE PERSONS

The workshop will feature expert sessions delivered by distinguished faculty members and researchers from IITs, NITs, IIITs, and Industry professionals. The sessions will cover both fundamental and advanced topics in digital forensics, cyber fraud investigation, digital evidence analysis, and contemporary cybercrime investigation techniques through lectures, demonstrations, and hands-on practical sessions.
